Research Title: Essence, Form,
Architecture: Critical Research on
the Work of Yang Tingbao
Supervisor: Meriggi Maurizio

RESEARCH INTEREST

My PhD.thesis research is about a critical re-read on the work of an architect Yang Tingbao, from linguistic point of view. Through a close reading of architectural cases, specifically three railway stations, referring the existing narrative or discursive formation about Yang. The research uncovers the lasting "Essence and Form" debate in Chinese architecture on a moment of architectural shifts from 1920s to 1960s, in China and it's affinities in the discourse of modernity.

研究主题：从建筑师杨廷宝的作品看中国现代的形式（体）与本质（用）之论
导师：Meriggi Maurizio

研究兴趣

本人的博士论文以建筑师杨廷宝设计的三座火车站——沈阳北站、南京下关火车站与北京站——为关键研究对象切入，通过对其建筑形式语言与设计构成逻辑在 20 世纪 20 年代至 60 年代中国建筑现代性建构的背景中进行重读与比较分析。研究引入 Peter Rowe 提出的“形式与本质”（Form and Essence）理论视角。在方法论上，目前希望借鉴语言学的分析视角，将建筑视为一种具有“词汇”（idiom）与“含义”（translation）的表达系统：前者指向建筑在构成、类型与形式层面的可识别要素，后者则关注这些要素在特定历史、技术与文化语境中的转译与意义生成。
